

Khaw Glong

Thai Cuisine

Dear Customer, Welcome to Khaw Glong

This restaurant has a few important characteristics that we wish you to know:

Everything we will bring to your table is cooked freshly for you: we do not pre-cook anything and we do not use any pre-cooked ingredients.

For this reason you might have to wait a few minutes longer than what you might have experienced in other restaurants.

We source most vegetables and fruits from our own farm (see the end of the menu) and we buy whatever can be bought daily and locally at the local fresh food market thus minimizing the use of frozen or processed food.

Since 2011

Welcome to Khaw Glong Hills!

We recently started our own farming on a beautiful piece of land overlooking the coast of Samui. We grow fruits and vegetables that we use in our kitchen, we use absolutely no pesticides and chemical products so our products are absolutely BIO. We plan more than a farm at Khaw Glong Hills, so we hope in a day not too far to host our guests directly on Koh Samui beautiful hills to taste our food while watching at this extraordinary view you see in the background!
